To

Mr. Yousef Al-Othaimeen

The Secretary-General

Organization of Islamic Cooperation (OIC)

Jeddah, Saudi Arabia

Subject: The Nero of Syria.

Dear Mr. Secretary General

I feel very grieved in drawing your honors concern towards a very sensitive fact about the current scenario of Syria .

Syria has a glorious past and is held in high esteem by the believers in La ilaha ill lall lah Muhammadur Rasulullah all over the world.

1. Who is unaware of the genocide rampant in Syria under the aegis of the USA and its allies on one hand and Russia and its allies on the other?
2. Who are being massacred there. More than half a million innocent civilians, including 3 years old children whose last words before death at a recent bombarding in the city called **Ghouta** in Syria were **“we are going to Allah and tell Him everything“?**

**“Save these
angels
before they
approach
the almighty
Allah for
justice”**

“These bundles do not contain something to be consumed by living beings on the earth, but inside it; Yes, the remains of innocent angels”

3. Who were killed in Iraq, Egypt, Libya, Afghanistan and so on?
4. Who is supplying rather selling arms to the killers?
5. Who made the peaceful followers of La ilaha ill lall lahbelonging to various sects kill each other?
6. The so called 'Biggs' of the world only want to annihilate the followers of La ilaha ill lall lah in piece meal by dividing them.
7. Where are the torch bearers of human right ?
8. How many conflicts, threatening the peace of the world has the UNO solved so far ? The Biggs will only try to use the situation there to their own advantage.
9. What is the difference between the present UNO and the past League of Nations? Has President **Bashar-ul- Asad** become so indomitable that the united pressure of **Organization of Islamic Cooperation (OIC) (Saudi, Iran, Indonesia, Turkey and the like)** cannot force him not to follow the footsteps of Nero. Yes. it was Nero who fiddled white Rome burned. In Syria it is Bashar-ul-Asad who is enjoying surfing in the sea of blood flowing there and making fun of the leaders of human rights. As a matter of fact it is mandatory on the part of **fifty seven members of the OIC** and the like to come forward and immediately stop genocide in Syria. It is futile to expect anything from the UNO because it is dominated by the Biggs with vested interests.

What an irony! The Canadians including the Sikh community among them have expressed their concern for crushing of human rights there practically by granting the migrants from Syria the citizenship of their country **where as the OIC is still brooding over this carnage.**

We must not forget that nature is the greatest dispenser of justice. It never spares any action of its creatures, detrimental to its governance, from bringing them to justice. The fate of the **Pharaoh (Remises), Hitler, Changes Khan, Nero, the executors of Jesus and Yazeed, the impious,** are the living examples of this truth. Still there is time to mend our ways and help the suffering Syrians.

We, the Indian followers of La ilaha ill lall lah.....,are prepared to extend our full co operation with the OIC in stopping this bloodbath there.

Thanking you with the hope that OIC will come out for immediate action in this regards and fulfill the aim and purpose of the organization.

A line of acknowledgment for this letter will be highly appreciated.

Yours truly

Muhammad T Kaifi
